

Frequently Asked Questions AAUW Harrisburg Scholarships

Should I apply for more than one scholarship?

If you meet the requirements of multiple scholarships, please complete a separate application and essay for each scholarship. Supporting documentation (i.e. references, financial aid form, and verification of enrollment) can be submitted once per candidate.

What kind of transcript is acceptable?

An official transcript has an embossed seal and is available only from the Registrar's Office. Transcripts must show courses and grades corresponding to the number of credit hours required. If you are a transfer student, be sure to submit transcripts showing that you have completed the number of hours required.

What do I do with the "Consent to Release Educational Records to a Third Party"?

The college registrar and financial aid officer will each require this signed document in order to release the necessary personal information to us.

How do I demonstrate financial need?

The college financial aid officer will use the current Student Aid Report to fill out the financial aid form included in the application packet. The financial aid officer will be required to complete this form and send it by mail or electronically.

What is an academic reference?

It is a written reference from a professor who has taught you in at least one class. This may be mailed or sent electronically directly from the professor with his/her signature included on the form.

What is considered full-time?

You have to be enrolled in classes earning at least 12 credits per 15-week term.

How should I send the application materials?

The application materials may be sent in one complete packet by mail or electronically. We certainly understand that it may take some time to collect all of the necessary information, references and documents, so please request this information with enough time before the June 2, 2017 deadline. We prefer the application packet to be complete, but we certainly understand the desire of some institutions or references to send the information separately, therefore, we will accept applications in more than one mailing/electronic mailing.
